SELF-ABUSE is another formidable enemy to health, for nothing else in the dread catalogue of human diseases causes so destructive a drain upon the system, drawing its thousands of victims through a few years of suffering down to an antimely grave. It destroys the Nervous System, rapidly wastes away the energies of life, causes mental derangement, prevents the proper develop ment of the system, disqualifies for marriage, society, business, and all earthly happiness, and leaves the sufferer wrecked in body and mind, predisposed to consumption and a train of evils more to be dreaded than death itself. With the fullest confidence I assure the unfortunate victims of Self-Abuse that a perfect and speedy cure can be offected, and with the abandonment of ruinous practices, my patients can be restored to robust, vigorous health.

I have carefully analyzed many of the so-called Patent Medicines, and find that nearly all of them contain Corrosive Sublimate, which is one of the strongest preparations of mercury, and a deadly poison, which, instead of curing the disease, disables the system for life.

Three-fourths of the putent nostrums now in use are put up by unprincipled and ignorant persons, who do not understand even the niphabet of the materia medica, and are equally as destitute of any knowledge of the human system, having only one object in view, and that to make money regardless of consequences.

DR. ROBACK'S Blood Purifier and Blood Pills. DISEASE VANQUISHED

DR. ROBACK'S SCANDINAVIAN REMEDIES.

A FTER years of study and experiment, Dr. Roback, the eminent Sweedish Physician, succeeded in producing a medicine from twenty-three different species of mountain herbs of his native land, which acts directly upon the causes of disease in the blood, and by restoring the corrupted fountain of life to a condition of health and purity, expels disease from the system, wherever it may be located, or whatever may be its character. Indigestion, nervous complaints, eliptic and other fits, coughs, consumption in its early stages, sore throat, bronchitis, fever and ague, asthma, low spirits, sexual incapacity, feminine weakness, pricking of the skin, symptomatic of paralysis, rhoumatism, neuralgis, tumor, cancer, diabetes, lasitude and debility, diarrhea, and all other disorders of the organs of respiration, the liver, the kidneys, the stouach, the nerves, or the muscular fiber, are uncringly cured by this preparation. It is to the matterns mount of seeds of disease what an alkali is to an acid: it neutralizes them with absolute certainty, while at the same time it regulates the secretions, removes obstructions from the bowels, creates appetite, renews bodily vigor, and regenerates every animal function. Such is the nature—such are the effects of Dr. Roback's famous Scandinavian Blood Pills, will not only obliterate the most painful disease, but prevent their recurrence, and lengthen life beyond the ordinary span.

Dr. C. W. Roback: I have received so much benefit from your Scandinavian Blood Purifier and Blood Pills, that I have thought it my duty, and it is no tess my inclination, to give you a plain statement of my case. I was for years afflicted with that bane of all comfort, and efficiency in business, dyspepsia. To recapitulate all the so-called remedies which I have used to rid myself of this disease, would indeed make a melancholy catalogue. I also consulted with the best physicians I could hear of. I was induced to try your remedies, through the persuasions of a friend, and after using them a few days, was greatly benefitted, and in a short time, (less than a month.) I was entirely and permanently cured. I was also afflicted with the most violent nervous headache, which I suppose was produced by my disordered stomach, for when my dyspepsia left me, my headache left with it. I now feel better in every respect than I have for ten years.

Very truly yours, JOHN S. DEMUTH.

FOR ALL THE PURPOSES OF A

FAMILY PHYSIC.

THREE has long existed a public demand for an THERE has long existed a public demand for an effective purgative pill which could be relied on as sure and perfectly safe in its operation. This has been prepared to meet that demand, and an extensive trial of its virtues has conclusively shown with what success it accomplishes the purpose designed. It is easy to make a physical pill, but not easy to make the best of all pills—one which should have none of the objections, but all the advantages, of every other. This has been attempted here, and with what success we would respectfully submit to the public decision. It has been unfortunate for the patient hitherto that almost every purgative the patient hitherto that almost every purgative els. This is not. Many of them produce so much reiping pain and revulsion in the system as to more han counterbalance the good to be derived from hem. These pills produce no irritation or pain, toless it arise from a previously existing obstruc-ion or derangement in the bowels. Being purely egetable, no harm can arise from their use in any quantity: but it is better that any medicine should be taken judiciously. Minute directions for their use in the several diseases to which they are apose in the several diseases to which they are applicable are given on the box. Among the complaints which have been speedily cured by them, we may mention Liver Complaint, in its various forms of Jaundice, Indigestion, Languor and Loss of Appetite, Listlessness, Irritability, Bilious Headache, Bilious Fever, Fever and Ague, Pain in the Side and Loins; for, in truth, all these are but the consequence of diseased action in the liver. As an aperican they afford prompt and sure relief in Costiveness, Piles, Colle, Dysentery, Humors, Scrofula and Scurvy, Colds with soreness of the body, Ulcers and impurity of the blood, Irregularities; in short, any and every case where a purgative is required.

They have also produced some singularly successful cures in Rheumatism, Gout, Dropsy, Gravel, Errsipelas, Palpitation of the Heart, Pains in the Back, Stomach, and Side. They should be freely taken in the spring of the year, to purify the blood taken in the spring of the year, to purify the blood and prepare the system for the change of seasons. An occasional dose stimulates the stomach and bowels into healthy action, and restores the appetite and vigor. They purify the blood, and, by their stimulant action on the circulatory system, renovate the strength of the body, and restore the wasted or diseased energies of the whole organism. Hence an occasional dose is advantageous, even though no serious derangement exists; but unnecessary dosing should never be carried too far, as every purgative medicine reduces the strength, when taken to excess. The thousand cases in which a physic is required cannot be enumerated here, but asional dose stimulates the stomach and a physic is required cannot be enumerated here, but they suggest themselves to the reason of every body; and it is confidently believed this pill will answer a better purpose than any thing which has hitherto been available to mankind. When their hitherto been available to mankind. When their virtues are once known, the public will no longer doubt what remedy to employ when in need of a cathartic medicine. Being sugar-wrapped, they are pleasant to take, and being purely vegetable, no harm can arise from their use in any quantity.

This remedy has won for itself such notoriety from its cures of every variety of pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lunga by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are incident to our climate. Not only in formidable attacks This remedy has won for itself such notoriety to our climate. Not only in formidable attacks upon the lungs, but for the milder varieties of Colds, Coughs, Hoarseness, &c.; and for Chil-

Colds, Couchs, Hoarskness, &c.; and for Chil-drawn it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the best that it ever has been, and that the genuine article is sold by—

JOY TO THE AFFLICTED!!!

It cores nervous and debilitated sufferers, and removes all the symptoms, among which will be found indisposition to exertion, loss of power, loss of memory, difficulty of breathing, general weakness, horror of disease, weak nerves, trembling, dreadful horror of death, night sweats, cold feet, wakefulness, dimness of vision, languor, universal hissitude of the muscular system, often enormosa appetite, with dyspeptic symptoms, hot hands, flushing of the body, dryness of the skin, pallid countenance, and cruptions on the face, pain in the back, heaviness of the eyelids, frequently black spots flying before the eyes, with temporary suffusion and loss of sight, want of attention, great mobility, Restleamess, with horror of society. Nothing is more desirable to such patients than solitude, and nothing they more dread for fear of themselves, no prepose of manner, no earnestness, no speculation, but a hurried transition from

These symptoms if allowed to go on—which this
medicine invariably removes—soon follows loss or
rower, factly, and efficient firs—in one of which
the patient may expire. Who can say that these excesses are not frequently followed by those direful
diseases—invarity and consumption? The record of
the Lisane Asylums, and the melanchely deaths by
Consumption, bear ample witness of the truth of these
assertions. In Lunatic Asylums the most melanchely
exhibition appears. The countenance is actually sodden and quite destitute—neither Mirth or Grief ever
visits it. Should a sound of the voice occur, it is
rarely articulate.

Dec. 22, 1857. 19 AFFLICTED READ! Philadelphia Medical House.

Established twenty-two years ago by Dr. KINKELIN, corner of Third & Union ste., Philadelphia, Pa. TWENTY-TWO YEARS' Experience has rendered Dr. K. a most suscessful practitioner in the cure of all diseases of a private nature; manhood's debility, as an impediment to marriage; nervous and sexual infimities, diseases of the skin, and those arising from abuse of mercury.

TAKE PARTICULAR NOTICE. There is an evil habit sometimes indulged in by boys, in solitude, often growing up with them to manhood; and which, if not reformed in due time, not only begets serious obstacles to matrimonial happiness, but give rise to a series of protracted, insidious, and devastating affections. and devastating affections.

Few of those who give way to this pernicious practice are aware of the consequences, until they find the nervous system shattered, feel strange and unaccountable sensations, and vague fears in the mind. (See pages 27,28, 29, of Dr. R.'s book on "Soif-Freezyation."

tion."
The unfortunate thus affected, becomes feeble, is unable to labor with accustomed vigor, or to apply his mind to study; his step is tardy and weak, he is dull, irresolute, and engages even in his sports with less energy than usual.

If he emancipate himself before the practice has done its worst, and enter matrimony, his marriage is unfruitful, and his sense tells him that this is done by his early folies. These are considerations which should awaken the attention of all who are similarly situated.

REMEMBER.

He who places himself under Dr. KINKELIN'S treatment, may religiously confide in his honor as a gentleman, and rely upon the assurance, that the accrets of Dr. K's patients will never be disclosed. Young man—let no false modesty deter you free making your case known to one, who, from education and respectability, can cortainly befriend you. br.
